PROFESSIONAL SUMMARY

Final-year B.Tech CSE student at JIET Jodhpur who likes building web apps end to end. Works mostly with PHP/MySQL and Node.js, and has built projects using REST APIs, JWT authentication and LLM APIs. Completed a 3-month PHP internship in 2026; looking for a software engineering role with room to take on more responsibility over time.

TECHNICAL SKILLS

Languages: JavaScript (ES6), PHP, Python, SQL

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, jQuery

Backend: Node.js, Express.js, PHP (OOP), Laravel, REST API, JWT Authentication, PDO

Databases: MySQL, MongoDB, PostgreSQL (Basic)

Tools: Git, GitHub, Docker, Postman, VS Code, Cursor, npm, Vercel, Render

PROFESSIONAL EXPERIENCE

PHP Developer Intern | Lucid Outsourcing Solutions | Jodhpur, Rajasthan | May 2026 – August 2026

- Built e-commerce web applications in object-oriented PHP with a MySQL backend.
- Added an LLM-powered assistant for user onboarding and search, for restaurant and coffee shop use cases.
- Built Ordo, a Laravel 12 app with AI-assisted tasks, geo-spatial routing and RBAC, deployed on Railway.
- Made an Avengers-themed browser game in HTML, CSS and JavaScript where you pick hero cards to fight villains like Thanos and Doctor Doom. Built as a company skills assessment; one of four projects I started on my own during the internship.

Web Development Intern | Lucid Outsourcing Solutions | Jodhpur, Rajasthan | May 2025 – June 2025

- Learned HTML, CSS, Bootstrap, jQuery and JavaScript and built responsive pages from scratch.
- Built a coffee shop website with a PHP and MySQL backend, my first full-stack project.
- Made a Student Smart Attendance System for a college presentation.

PROJECTS

LexBot – AI Legal Information Chatbot | Node.js, Express, MongoDB, Claude API, Gemini API | Jan 2026 – Mar 2026

- Built a legal Q&A chatbot with Node.js, Express and MongoDB. It uses the Claude and Gemini APIs, keeps session history, and has 3 REST endpoints (chat, history, health-check).
- Frontend on Vercel, backend on Render. 100+ people have used it, with a 4.5-star average rating.

Grocery Finance System – Retail & Wholesale Order Management | Full-Stack, AI Analytics | Nov 2025 – Jan 2026

- Studied how 10+ grocery shops handle orders, stock and payments, then built a system with admin, retail and wholesale roles and role-based pricing.
- Admin dashboard includes demand prediction and anomaly detection, based on patterns seen in those shops.

EduInsight – School Management & Analytics API | Node.js, REST API | Jun 2025 – Sep 2025

- Backend for a school system with admin, teacher and student roles and 15+ API endpoints, including analytics endpoints that summarise performance for each student and each class.
